JMC CHAIRMAN'S STATEMENT

On behalf of the Elected Committee Members of Jaya One Management Corporation, I would like to thank all the collective owners in putting your faith and trust in empowering this Committee to represent and work closely with the appointed Managing Agent.

The key essence towards any successful relationship is in nurturing and fostering trust. As such, our goals are always to engage and educate this vast and diverse community's mindset towards progress, whilst harmonizing and humanizing this institution with respect to rationalization of laws to meet practical needs and public sentiments.

Our role as Committee Members is not to micro manage or scrutinize every detail of operational activities, but instead challenge our present policies and re-strategise new ways to champion community spirit growth.

Having served as Chairman, which is no different to being a public servant to any public community, I have learned that allocation of resources and funds to support this balance to fulfill different stakeholders needs, will forever remain a challenge. We are not an organization that can afford luxury and thus we must find new ways to manage our cost and sustain the financial balance against the inevitable threat of inflation.

Vision and policy making becomes fundamental in the role of committees in order to keep the macro aspect of progress in perspectives. Innovations becomes key in ensuring our collective interest is preserved but yet enhanced. Thus the Vision and Success for Jaya One, is in the creation of an Eco system of Community Champions in order to make Big and Difficult Decisions, Balance the Allocation and Use of Resources and Finally Steer Policy to ensure the Vision is progressively met.

Mr. Wong Chee Kooi
Chairman of Jaya One Management Corporation

JMC TREASURER STATEMENT

The year of 2016 was a challenge, as the Budget prepared was overwhelmed by many unforeseen activities which took place.

In 2015 Block J (The Residence, 129 Office and The School) was completed, injecting approximately 1.3 million sq.ft of gross development area into Jaya One, thus the total Gross Build Up Area for the entire Jaya One reached 3.3 million sq.ft. Common areas and facilities expanded by 480,000 sq.ft (40%) during this period to reach 1.7 million sq.ft.

Much of the deficit which occurred in 2016, was a result of the stabilisation period which had already begun in 2015, and the sudden expansion of resources required to cope with explosive demand of services that was required.

We were taken by surprise, as we did not anticipate that the occupancy rate for the Residence and 129 offices will grow so rapidly during 2016, thus the budget for 2016 was not able to withstand.

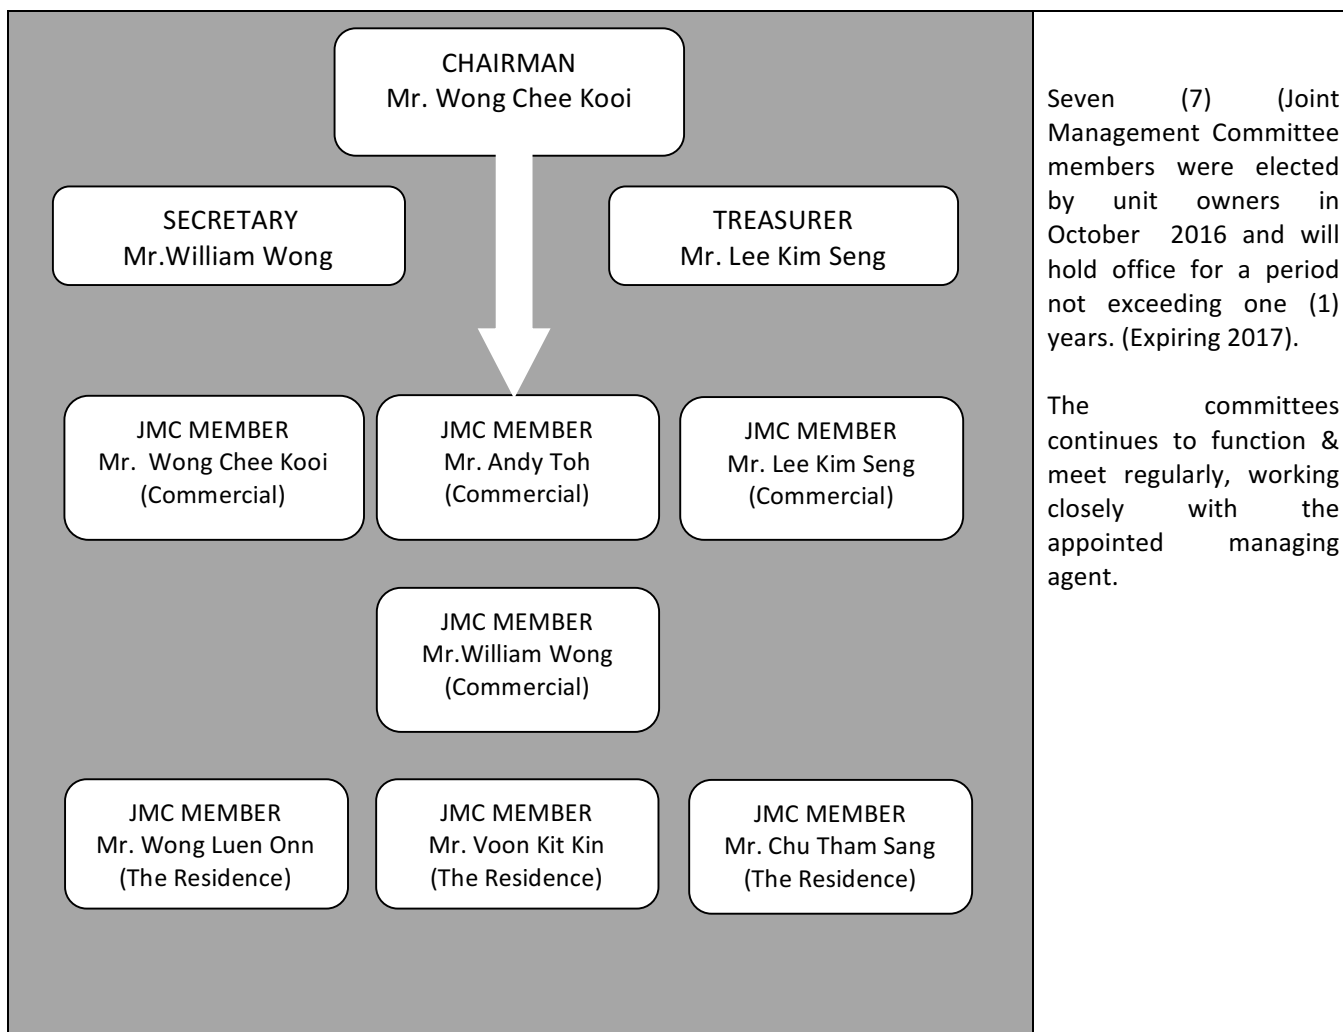

Having gone through the adversity in 2016, which enabled us to understand the behavior of cost in relation to building characteristics and specifications, we redesigned a new budget for the year 2017 which resulted in the increase of Service Charge contribution in 2017. Thank you to all unit owners whom supported this during the AGM held in end of 2016.

The substantial financial deficit is not recoverable through time as this institution is not for profit making and as such the budget for 2017 was designed to break-even. That leaves the question of how the accumulated deficit which occurred from 4th Quarter of 2015 and FYE 2016 be financed. In order to avoid the need to call for additional fund raising to finance these losses, it would be most logical to utilise the Sinking Fund to off set these losses.

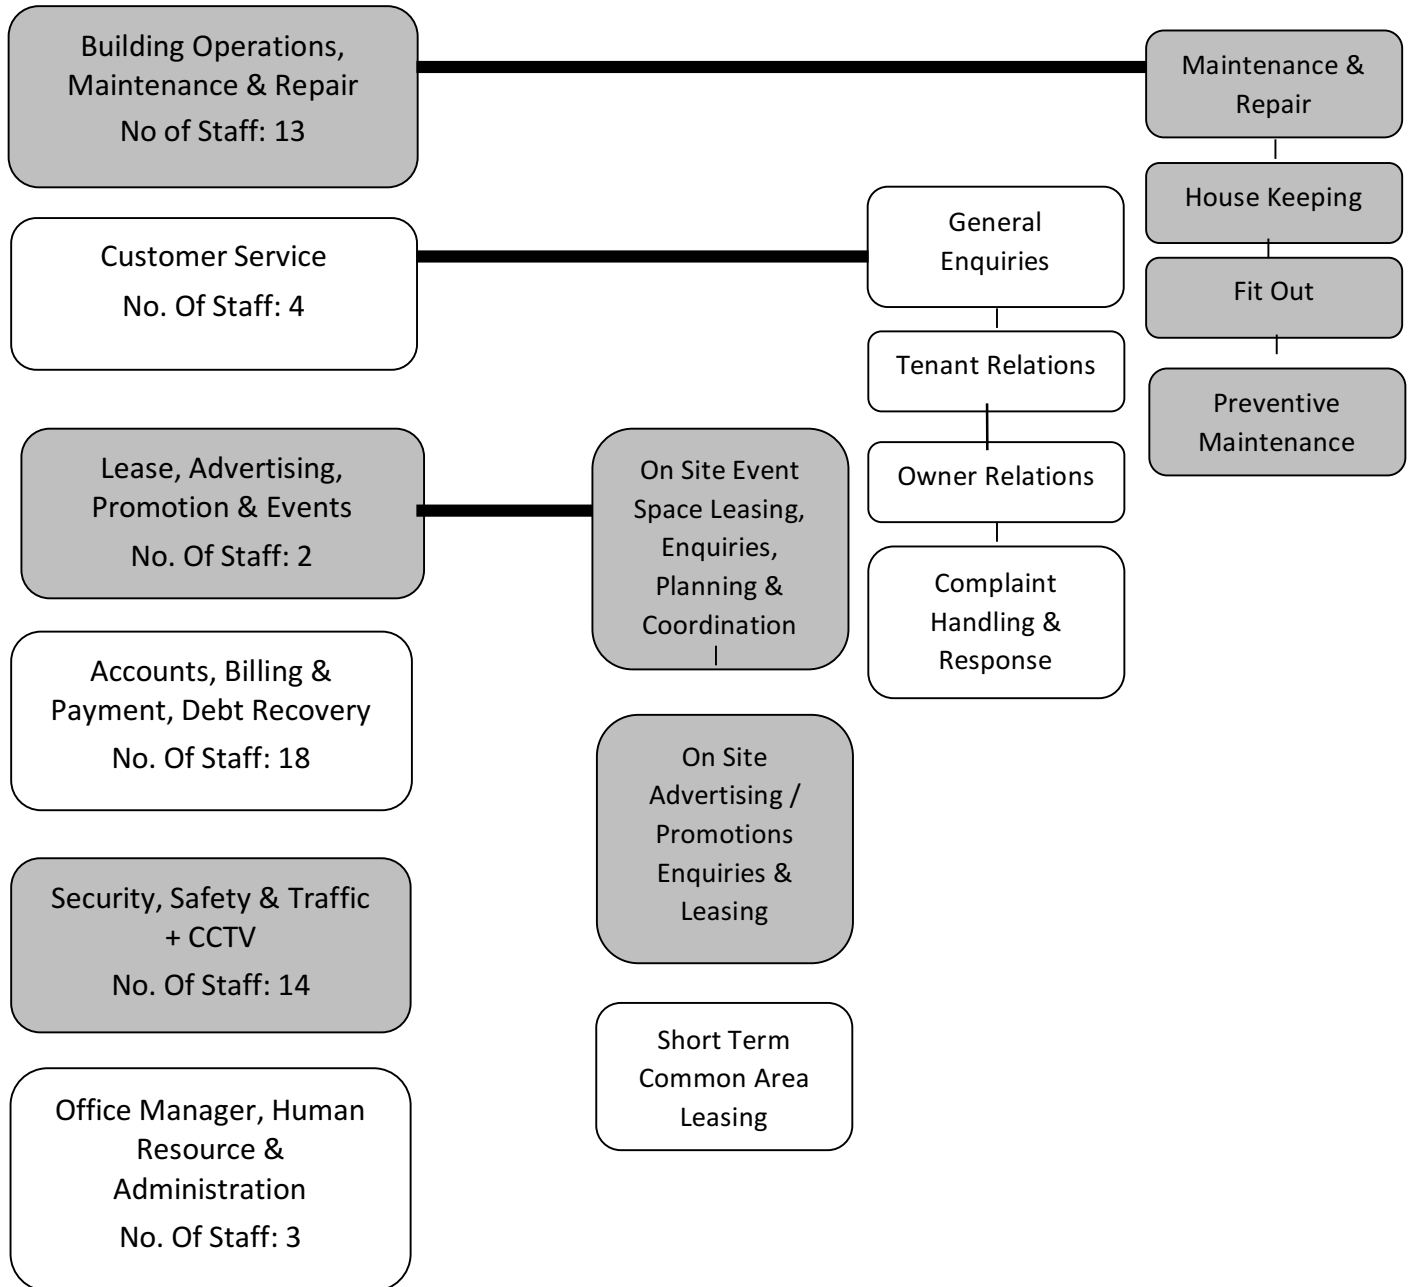

I urge our all owners to maintain a positive outlook and that despite the continuous inflationary pressure against us, we will strive to work with the fair resources allocated in order to maintain and grow Jaya One. Thank you.

Mr. Lee Kim Seng
Treasurer of Jaya One Management Corporation

OPERATION HIGHLIGHTS

Overview of Operational Highlights for the Year 2016

Formation of Management Corporation

In 2016, Jaya One Joint Management Body (“the Body”) transitioned towards formation of Management Corporation. The First Annual General Meeting was held on 8th October 2016 and on 5th January 2017 Jayaone Management Corporation (“JOMC”) was established under the strata Management Act 2013. All assets and liabilities of the Body has been transferred to JOMC thereafter.

Security

Repairs, maintenance and replacement of CCTV Monitoring Systems and Cameras.

Total Number of CCTV Cameras	:	145
Faulty Cameras Replaced	:	5
Faulty Cameras Repaired	:	29

TOTAL COST : RM18,700.00

OPERATION HIGHLIGHTS

Overview of Operational Highlights for the Year 2016

Repairs and Upgrade of Signages

The Management had awarded contracts progressively during this period to improve, repair and replace signages in order to actively promote a better sense of directions for our customers and shoppers.

TOTAL COST : RM 71,351.25

Repair, Maintenance & Replacement of Parts for Centralise Grease Interceptor Plant and Sewerage Treatment Plant

As part and parcel of the Management’s goal to continuously minimise contamination water discharge and gas emission into our environment, we remained committed to maintain the Sewerage Treatment Plant and Centralise Grease Interceptor Plant. We awarded contracts to various specialist contractors to repair and maintain the facilities in order to meet Department Of Environment Standards.

TOTAL COST : RM198,839.00

OPERATION HIGHLIGHTS

Overview of Operational Highlights for the Year 2016

Main Refuse Chamber & Recycling Chamber

The Main Refuse Chamber represents the main facility to store refuse and waste, which makes this facility one of the most used facility in Jaya One. Refurbishments was needed in order to upgrade this facility as part and parcel of the need to manage the waste disposal more effectively. The amount spent was to enable easier access, cleaning and dewatering so that to ensure more efficient means to operate and maintain this facility. We also modified some of these spaces to accommodate contractors toilets as well as improve the holding / storage areas for recycling purposes.

TOTAL COST : RM44,255.00
