

First-ever FineMolds Scale Modelling Weekend

Bringing Miniature Masterpieces to Life

The inaugural Scale Modelling Weekend hosted by F-4DableModels was a gathering like no other, specially tailored for enthusiasts who appreciate the craftsmanship that goes into each FineMolds creation at Level G, The School.

Event attendees got to experience the FineMolds Model Exhibition, where they get to check out Malaysian-made world-class competition collection! Families with kids were able to participate in the Kids' Workshop to make their own Gas Truck/Aircraft model, while the Kuen Cheng Air Scouts took part in the FineMolds Live Build to craft their own Fine Molds models.

An SMM Annual Competition was conducted, where a total of 8 bronze, 4 silvers and 4 gold medals were awarded while a tiny 1/144 plane model walked off with the Best of Show.
