

DRIVING INNOVATION: UNVEILING THE FUTURE OF URBAN DRIVING

FUTURE FORWARD: GWM MALAYSIA SPOTLIGHTS INNOVATIVE ELECTRIC CARS

The GWM Jalan Ipoh Roadshow from 6-8 June 2024 was an impressive display showcasing the future of urban living through stylish electric cars, ideal for modern drivers seeking innovation and sustainability.

Visitors get to experience firsthand the ORA 07, ORA Good Cat, and Haval H6 HEV, vehicles packed with cutting-edge technology that enhances the driving experience. It was an opportunity for attendees to immerse themselves in a world where advanced automotive technology and intelligent design converge, promising a glimpse into the future of transportation.
